

```
n=int(input("Enter a number n: "))
a=n
b=n*n
c=n*n*n
d=a+b+c
print('result is',d)
```

The screenshot shows a terminal window with the following content:

```
C:\Users\acer\PycharmProjects\pythonProject\venv\Scripts\python.exe C:/Users/acer/PycharmProjects/pythonProject/integer.py
Enter a number n: 5
result is 258
Process finished with exit code 0
```

The terminal window has a dark background and a light-colored text. The prompt 'Enter a number n:' is followed by the input '5'. The output 'result is 258' is displayed on the next line. The final line indicates that the process finished with exit code 0.
